

ETILWENI
PIONEERING EVOLUTION

COMPANY PROFILE

**Redesigning
Africa's
Future**

About **Etilweni**

Infrastructure development is a leading driver for progress on the African continent and a critical enabler of sustainable growth.

“ The infrastructure sector is all about building assets for the country. It is part of nation building. ”

Gautam Adani

The name Etilweni originates from the Tsonga language that directly translates to 'in the heavens' – this speaks to the standards, expectations and experience we seek to live up to.

We are a multidisciplinary, award-winning, international construction company. Established in 2011, our founder Mr Jabulani Ntimani has been at the forefront of developing and executing innovative engineering solutions for a variety of clients across multiple industries.

Our motto, “pioneering evolution” speaks to the recognition that Africa’s vast infrastructure deficit is a limitation to its growth, but also an opportunity to rise to more efficient societies. At Etilweni, we understand that re-designing the future requires an innovative and agile approach to solve these complex infrastructure challenges. Our strength lies in bringing together expert knowledge coupled with leading technology to achieve successful outcomes.

Our Leadership

Jabulani Ntimani
Founder and CEO of Etilweni

As the founder and CEO of Etilweni, Jabulani Ntimani has spent over a decade at the forefront of developing and executing innovative engineering solutions for a variety of clients across multiple industries.

With a background in business development, Mr Ntimani has leveraged his expertise to successfully lead the company in delivering cost-effective and sustainable solutions to complex engineering challenges.

Over the years, he has built a team of experts that share his vision of excellence, and under his leadership, Etilweni has grown to become a trusted partner to clients managing projects worth more than R4 billion.

Throughout his career, Mr Ntimani has demonstrated a strong commitment to ethics, sustainability, and community development, and has been recognised by industry associations such as Business Doctors and Red3Sixty for 'Unstoppable Performance', exceptional leadership and his contribution to the field of engineering.

Our Clients

Our reputation in the industry is built on a deep understanding that engineering is multifaceted and requires technical excellence coupled with an unconventional approach.

With more than 10 years of experience, we have successfully managed client projects from planning to design phase, project implementation and close out stages.

Our goals are always achieved with strong collaborations that inspire sustainable growth – that’s what makes us Pioneers of Evolution.

Our Services

When you partner with Etilweni, you gain access to a host of experts with a proven track record of successful engineering and infrastructure development across various sectors.

Together with our clients, we facilitate efficient and cost-effective solutions to complex engineering challenges. Our diversified services cut across the following sectors:

Civil and Structural
Engineering

Town and
Regional Planning

Mechanical & Electrical
Engineering

Quantity
Surveying

Project & Programme
Management

Architectural
Services

Procurement & Supply
Services

Our promise to our Clients

At Etilweni, we promise our clients the highest level of project excellence by:

- 1** Capitalising on new technological developments and sustainable efficiencies.
- 2** Providing effective solutions taking into account capital and operating costs for each application.
- 3** Maintaining accurate and timeous cost reporting and control throughout the project.
- 4** Continually reassessing designs against the project goals, which may vary to suit changing business conditions.
- 5** Maintaining close interaction with all stakeholders and partners to optimise overall performance and cost control.
- 6** Continually re-evaluating our client's brief against market conditions and new technologies.

Quality Assurance

The Etilweni team adheres to a strict code of professional conduct which includes a responsibility to our clients and the engineering profession.

We pride ourselves in having full regard for public interest and we believe in upholding the highest standard of technical excellence.

Our consultation with clients is always done efficiently, competently, and without undue delay.

We engage Professionals, Technologists and Technicians registered with the following professional bodies:

Corporate Social Responsibility

Etilweni continuously partners with local communities and government to address social challenges and facilitate sustained economic growth. We have dedicated ourselves to creating a platform for community development with every project we acquire. Over the years, we have partnered with local organisations to sponsor various development initiatives.

Through our work, we are committed to actively participating in bringing solutions to the challenges that our communities face in line with the United Nations Sustainable Development Goals.

1. Community Development

We work alongside communities to bring sustainable development and social improvement.

2. Mentorship Programme

We understand that bridging the skills development gap is a vital part of economic development in Africa. Our internship programme aims to guide young practitioners toward bettering themselves, the community, and the economy while bringing innovation and excellence to engineering.

3. Etilweni Covid-19 Response

In response to the Covid-19 pandemic that affected the global community, Etilweni partnered amongst others with the following institutions to distribute food parcels; Kings Covenant Christian Centre in Naturena, Greater Giyani Municipality, and DRT Municipality.

Our Projects & Expertise

Etilweni is uniquely positioned to carry out large scale multi-disciplinary projects from planning, design and construction. The following portfolio of evidence showcases diversified expertise that would range from Housing, Roads, Water, Electricity and Procurement and Supply of various material.

1. HOUSING AND TOWNSHIP ESTABLISHMENT

Client: Kwa-Dukuza Municipality

Rocky Ridge Human Settlements: Planning, Design and Construction of 3000 houses including road networks, water and sewer services.

Lloyd Human Settlements: Planning, Design and Construction of 1000 houses including road networks, water and sewer services.

2. ROADS INFRASTRUCTURE

Client: City of Umhlatuze

Project Scope: Etilweni was appointed for the design and management of North Central Arterial Road

Client: Mpofana Municipality

Project Scope: Rehabilitation of Bruntville Internal Roads

Client: Mpofana Municipality

Project Scope: Rehabilitation of York Terrace Access Road on Turnkey Plan.

Our Projects & Expertise

3. ELECTRICITY, ENGINEERING AND PROJECT MANAGEMENT

Client: KZN Department of Cooperative Governance and Traditional Affairs (KZN CoGTA)

Project Scope: Project Management and Electrical Engineering services for Msunduzi Electricity Infrastructure Support.

Client: KwaDukuza Local Municipality

Project Scope: Etilweni connected 427 Streetlight Maintenance and High Mast. This service was conducted under consulting engineering services in respect of planning, design, and installation of public lighting electrical services.

Project Scope: Over the past two years Etilweni has completed planning, design and installation of public lighting electrical services of 811 Retrofit Streetlights under EEDSM Programme for 2021/22 Financial Year.

Client: Maphumulo Municipality

Project Scope: Electrification of 200 houses in Mzulwini Village.

Client: Mandeni Municipality

Project Scope: Electrification of 150 houses for Masomonco Village.

Client: iLembe District Municipality

Project Scope: Etilweni was appointed for detailed design and Project Management for Umvoti Balancing and Kearsney Pumpstations Electricity Supply Upgrade.

Client: Eskom

Project Scope: The project involved the planning, coordination and execution of all planned and unplanned outages for 15 Eskom power stations. The project was executed by boiler experts, plant experts and electrical and instrumentation experts.

Our Projects & Expertise

4. WATER ENGINEERING SERVICES

CLIENT : KwaDukuza Local Municipality

Project Scope: Housing infrastructure provision and upgrading for the Sokesimbone Housing Project. On this project we executed a major rehabilitation of the sewer to preserve and prolong the functional life of the pipeline and supporting bridges. The technical interventions entailed detailed hydraulic study and modelling, security evaluations, environmental study, project specifications, construction procurement, construction and close-out.

Client : Lepelle Northern Water

Project Scope: Etilweni was appointed for the refurbishment of 40 borehole systems within Giyani. This project was meant to alleviate acute water shortages in the area. The project included the conditional assessment, Civil, Electrical, Mechanical Engineering and Project Management.

5. PROCUREMENT AND SUPPLY SERVICES

Client: Transnet

Project Scope: Supply and Delivery of various testing locomotive equipment

Client: KZN Human Settlements

Project Scope: Source, Supply and Delivery of Building Material
